

CARNA4[®] Dog Duck

Recommended Daily Feeding Guide

Ideal daily feeding portions will vary for different dogs, depending on age, size, breed, environment and activity levels. Because Carna4[®] is so concentrated in high quality nutrients that are easily absorbed by your dog, you may need to feed 20% - 25% less per day than most other dry foods. The amounts shown below are guidelines only and you should carefully monitor your dog's weight, until an ideal balance is found.

8 fl. oz. Cups per Day
